

# AWAIS SADDIQUI

## MERN STACK DEVELOPER

As a MERN stack developer and computer system engineering student, I am passionate about creating robust and scalable web applications. With experience in front-end technologies such as HTML, CSS, and JavaScript, as well as familiarity with version control systems and databases, I am confident in my ability to develop high-quality web applications. My goal is to secure a position in a dynamic organization where I can utilize my skills and knowledge to contribute to the development of innovative web solutions.

### EDUCATION

- Undergraduate in Computer system engineering at University of Engineering and Technology (UET), Peshawar.
- Intermediate in Pre-Engineering [The Genius College Takht Bhai district Mardan]
- Matriculation in Science [Takht Bhai Model School Takht Bhai district Mardan]

### PROJECTS

- **Shopify**  
An e-commerce website developed using mern stack that allows users to buy and sell products online.
- **Weather App**  
A web application developed using JavaScript, HTML, and CSS that allows users to check the weather in their location by using the OpenWeather API
- **Chat Application**  
A real-time chat application developed using React.js, and Node.js that allows users to communicate with each other.
- **Guessing Game**  
A simple guessing game developed using JavaScript, bootstrap HTML, and CSS that allows users to guess a number between 1-100.
- **Craps Dice Game**  
A web application developed using JavaScript, HTML, and CSS that simulates the popular dice game of Craps.

### SKILLS

- **MERN Stack**  
Strong understanding of MongoDB, Express.js, React.js and Node.js along with experience working with it to develop web applications.
- **C++ Proficiency**  
Experience in developing console-based applications, algorithms, and data structures.
- **Object Oriented Programming**  
Familiarity with object-oriented programming principles and design patterns.
- **Front-end Web Technology Proficiency**  
Proficient in front-end web technologies such as HTML, CSS, JavaScript, and jQuery
- **Version Control Systems Familiarity**  
Familiarity with version control systems such as Git
- **Good understanding of relational and non-relational databases.**
- **Ability to write clean, well-documented, and reusable code.**
- **Strong problem-solving and analytical skills.**

### VOLUNTEER EXPERIENCE:

- **Microsoft Student Learn Ambassador (MLSA), [UET PESHAWAR]**
  - Collaborated with a team of student ambassadors to organize and promote tech-related events and workshops on campus.
  - Assisted in creating learning resources and tutorials on Microsoft technologies for students.
  - Helped mentor and guide students who were interested in pursuing a career in technology
