Summary

I am a MERN stack developer with 1 year of experience and student of computer system engineering at UET Peshawar. I have a passion for building scalable and robust web applications. My expertise lies in developing and implementing user-friendly interfaces using React.js and Node.js, as well as integrating them with MongoDB and Express.js to create full-stack web applications. I am committed to staying up-to-date with the latest technologies and trends in the industry, and I am constantly exploring new ways to improve my skills and knowledge. If you're looking for a dedicated and hardworking MERN stack developer, look no further. Let's connect and discuss how I can help bring your ideas to life!
